Re: New Annual Safety & Environmental Program

With all the lifestyle changes due to COVID-19, we all have a new safety concern. We now have a safety training program to meet all your ongoing safety and environmental compliance throughout the year.

Our onsite program will remain the same. This will include:

- Update all signs (Fire Extinguisher, Exit, No Smoking, etc.). Update all container labels (tanks, waste areas, storage, and portable containers)
- Update all State & Federal Posters
- Review all Written Programs and Safety Data Sheets
- Included with our services is communications throughout the year, newsletters, special bulletins, online access to training records and inspections reports, and assistance with your compliance questions.
- Quotes on request

Introducing **Online Training Video** – anytime, anywhere

This is a site-specific video covering:

- **Right-To-Know Training** (*with new GHS info*) – also to include your employee training requirements for:
 - **Fire Extinguisher, Lockout/Tagout** (General Awareness)
 - **Bloodborne Pathogens** 29 CFR 1910.1030 (General Awareness)
 - **HAZWOPER** 29 CFR 1910.120 (General Awareness)
 - **Personal Protective Equipment**
 - **Slips, Trips, & Falls** 29 CFR Subpart-D

*With a **Training Log**, so you can log when and who viewed the video.*

* Access to the new online training video will be contingent on the renewal of your annual Right-To-Know Program.
